

Technical Specification Document — Section 1

Proprietary algorithm specification line 0 with seed value 50

Proprietary algorithm specification line 1 with seed value 51

Proprietary algorithm specification line 2 with seed value 52

Proprietary algorithm specification line 3 with seed value 53

Proprietary algorithm specification line 4 with seed value 54

Proprietary algorithm specification line 5 with seed value 55

Proprietary algorithm specification line 6 with seed value 56

Proprietary algorithm specification line 7 with seed value 57

Proprietary algorithm specification line 8 with seed value 58

Proprietary algorithm specification line 9 with seed value 59

Proprietary algorithm specification line 10 with seed value 60

Proprietary algorithm specification line 11 with seed value 61

Proprietary algorithm specification line 12 with seed value 62

Proprietary algorithm specification line 13 with seed value 63

Technical Specification Document — Section 2

Proprietary algorithm specification line 0 with seed value 100

Proprietary algorithm specification line 1 with seed value 101

Proprietary algorithm specification line 2 with seed value 102

Proprietary algorithm specification line 3 with seed value 103

Proprietary algorithm specification line 4 with seed value 104

Proprietary algorithm specification line 5 with seed value 105

Proprietary algorithm specification line 6 with seed value 106

Proprietary algorithm specification line 7 with seed value 107

Proprietary algorithm specification line 8 with seed value 108

Proprietary algorithm specification line 9 with seed value 109

Proprietary algorithm specification line 10 with seed value 110

Proprietary algorithm specification line 11 with seed value 111

Proprietary algorithm specification line 12 with seed value 112

Proprietary algorithm specification line 13 with seed value 113

Technical Specification Document — Section 3

Proprietary algorithm specification line 0 with seed value 150

Proprietary algorithm specification line 1 with seed value 151

Proprietary algorithm specification line 2 with seed value 152

Proprietary algorithm specification line 3 with seed value 153

Proprietary algorithm specification line 4 with seed value 154

Proprietary algorithm specification line 5 with seed value 155

Proprietary algorithm specification line 6 with seed value 156

Proprietary algorithm specification line 7 with seed value 157

Proprietary algorithm specification line 8 with seed value 158

Proprietary algorithm specification line 9 with seed value 159

Proprietary algorithm specification line 10 with seed value 160

Proprietary algorithm specification line 11 with seed value 161

Proprietary algorithm specification line 12 with seed value 162

Proprietary algorithm specification line 13 with seed value 163

Technical Specification Document — Section 4

Proprietary algorithm specification line 0 with seed value 200

Proprietary algorithm specification line 1 with seed value 201

Proprietary algorithm specification line 2 with seed value 202

Proprietary algorithm specification line 3 with seed value 203

Proprietary algorithm specification line 4 with seed value 204

Proprietary algorithm specification line 5 with seed value 205

Proprietary algorithm specification line 6 with seed value 206

Proprietary algorithm specification line 7 with seed value 207

Proprietary algorithm specification line 8 with seed value 208

Proprietary algorithm specification line 9 with seed value 209

Proprietary algorithm specification line 10 with seed value 210

Proprietary algorithm specification line 11 with seed value 211

Proprietary algorithm specification line 12 with seed value 212

Proprietary algorithm specification line 13 with seed value 213

Technical Specification Document — Section 5

Proprietary algorithm specification line 0 with seed value 250

Proprietary algorithm specification line 1 with seed value 251

Proprietary algorithm specification line 2 with seed value 252

Proprietary algorithm specification line 3 with seed value 253

Proprietary algorithm specification line 4 with seed value 254

Proprietary algorithm specification line 5 with seed value 255

Proprietary algorithm specification line 6 with seed value 256

Proprietary algorithm specification line 7 with seed value 257

Proprietary algorithm specification line 8 with seed value 258

Proprietary algorithm specification line 9 with seed value 259

Proprietary algorithm specification line 10 with seed value 260

Proprietary algorithm specification line 11 with seed value 261

Proprietary algorithm specification line 12 with seed value 262

Proprietary algorithm specification line 13 with seed value 263

Technical Specification Document — Section 6

Proprietary algorithm specification line 0 with seed value 300

Proprietary algorithm specification line 1 with seed value 301

Proprietary algorithm specification line 2 with seed value 302

Proprietary algorithm specification line 3 with seed value 303

Proprietary algorithm specification line 4 with seed value 304

Proprietary algorithm specification line 5 with seed value 305

Proprietary algorithm specification line 6 with seed value 306

Proprietary algorithm specification line 7 with seed value 307

Proprietary algorithm specification line 8 with seed value 308

Proprietary algorithm specification line 9 with seed value 309

Proprietary algorithm specification line 10 with seed value 310

Proprietary algorithm specification line 11 with seed value 311

Proprietary algorithm specification line 12 with seed value 312

Proprietary algorithm specification line 13 with seed value 313

Technical Specification Document — Section 7

Proprietary algorithm specification line 0 with seed value 350

Proprietary algorithm specification line 1 with seed value 351

Proprietary algorithm specification line 2 with seed value 352

Proprietary algorithm specification line 3 with seed value 353

Proprietary algorithm specification line 4 with seed value 354

Proprietary algorithm specification line 5 with seed value 355

Proprietary algorithm specification line 6 with seed value 356

Proprietary algorithm specification line 7 with seed value 357

Proprietary algorithm specification line 8 with seed value 358

Proprietary algorithm specification line 9 with seed value 359

Proprietary algorithm specification line 10 with seed value 360

Proprietary algorithm specification line 11 with seed value 361

Proprietary algorithm specification line 12 with seed value 362

Proprietary algorithm specification line 13 with seed value 363

Technical Specification Document — Section 8

Proprietary algorithm specification line 0 with seed value 400

Proprietary algorithm specification line 1 with seed value 401

Proprietary algorithm specification line 2 with seed value 402

Proprietary algorithm specification line 3 with seed value 403

Proprietary algorithm specification line 4 with seed value 404

Proprietary algorithm specification line 5 with seed value 405

Proprietary algorithm specification line 6 with seed value 406

Proprietary algorithm specification line 7 with seed value 407

Proprietary algorithm specification line 8 with seed value 408

Proprietary algorithm specification line 9 with seed value 409

Proprietary algorithm specification line 10 with seed value 410

Proprietary algorithm specification line 11 with seed value 411

Proprietary algorithm specification line 12 with seed value 412

Proprietary algorithm specification line 13 with seed value 413

Technical Specification Document — Section 9

Proprietary algorithm specification line 0 with seed value 450

Proprietary algorithm specification line 1 with seed value 451

Proprietary algorithm specification line 2 with seed value 452

Proprietary algorithm specification line 3 with seed value 453

Proprietary algorithm specification line 4 with seed value 454

Proprietary algorithm specification line 5 with seed value 455

Proprietary algorithm specification line 6 with seed value 456

Proprietary algorithm specification line 7 with seed value 457

Proprietary algorithm specification line 8 with seed value 458

Proprietary algorithm specification line 9 with seed value 459

Proprietary algorithm specification line 10 with seed value 460

Proprietary algorithm specification line 11 with seed value 461

Proprietary algorithm specification line 12 with seed value 462

Proprietary algorithm specification line 13 with seed value 463

Technical Specification Document — Section 10

Proprietary algorithm specification line 0 with seed value 500

Proprietary algorithm specification line 1 with seed value 501

Proprietary algorithm specification line 2 with seed value 502

Proprietary algorithm specification line 3 with seed value 503

Proprietary algorithm specification line 4 with seed value 504

Proprietary algorithm specification line 5 with seed value 505

Proprietary algorithm specification line 6 with seed value 506

Proprietary algorithm specification line 7 with seed value 507

Proprietary algorithm specification line 8 with seed value 508

Proprietary algorithm specification line 9 with seed value 509

Proprietary algorithm specification line 10 with seed value 510

Proprietary algorithm specification line 11 with seed value 511

Proprietary algorithm specification line 12 with seed value 512

Proprietary algorithm specification line 13 with seed value 513
